## COMPANY OVERVIEW

Eigennet LLC, an ISO 9001:2015-certified small business, specializes in AI-powered records management, document processing, and compliance automation. We streamline document conversion, classification, and data extraction, ensuring efficiency and security for government agencies and enterprises. Our expertise includes intelligent redaction, regulatory compliance monitoring, and cost-effective digital transformation solutions that enhance operational accuracy and long-term data integrity.

### Business Process Areas:

- ✓ IT Professional Services
- ✓ Document Conversion Services (Electronic & Physical)
- ✓ Documents & Records Management
- ✓ Compliance Monitoring & Solutions
- ✓ Digital Imaging Services
- ✓ Professional Legal Services
- ✓ Management Consulting
- ✓ Paralegal Services For Copyright

## TECHNICAL CAPABILITIES

**AI & Machine Learning:** Eigennet develops AI-driven solutions for automation, predictive modeling, and compliance. Proprietary AI enhances bid management, records processing, and decision-making while ensuring security and regulatory adherence.

**Document & Image Processing:** Eigennet utilizes AI-driven OCR and ICR for document classification, metadata tagging, and data extraction, ensuring compliance, accuracy, and searchability.

**Robotics:** Eigennet integrates robotic systems to automate repetitive tasks, improving efficiency, reducing manual effort, and enhancing workflow compliance.

**Natural Language Processing (NLP) & Redaction:** Eigennet's AI-powered NLP automates text processing, entity recognition, and secure redaction, safeguarding PII and classified data while ensuring compliance.

**Workforce Solutions:** Eigennet delivers skilled SMEs, administrative professionals, and technical specialists to federal agencies, ensuring rapid deployment and seamless integration for enhanced efficiency.

**Custom Application Development:** Eigennet builds AI-powered, scalable applications in .NET, Java, and Python, ensuring security, seamless integration, and compliance with federal standards.

**Statistical Analysis:** Eigennet applies predictive analytics, risk assessment, and benchmarking to optimize decision-making and compliance monitoring.

## PAST PERFORMANCE

▶ **U.S. Internal Revenue Service – eOPF Secure Digital Transformation:** Eigennet digitizes IRS personnel records, ensuring security through AI-driven anomaly detection, encryption, and biometric authentication. We enhance data protection while complying with IRS standards.

▶ **U.S. Department of Navy – HR Administrative Support:** Eigennet supports the U.S. Hospital in Guam's HR Department, managing personnel records and ensuring compliance with PII and PHI protection regulations, improving efficiency and confidentiality.

- **Library of Congress – Document Conversion:** Eigennet digitized 1.6 million copyright records, streamlining OCR processing and metadata extraction to enhance accessibility and compliance with federal digitization standards.
- **U.S. Internal Revenue Service – DVD Digitization & Data Migration:** Eigennet processed 70 million taxpayer records, utilizing AI-driven RPA for secure cloud migration. We achieved 98% accuracy while ensuring compliance with IRS data security standards.
- **American Battle Monuments Commission – Records Digitization:** Eigennet digitized 150,000 historical records, integrating AI-powered metadata indexing for enhanced searchability, accuracy, and long-term preservation.
- **U.S. Commission for America’s Heritage Abroad – Document Digitization:** Eigennet digitized up to 150,000 historical records, ensuring secure processing, precise metadata extraction, and compliance with federal preservation standards.

## DIFFERENTIATORS

- ✓ **Experienced Personnel** – Key staff members have 15+ years of IT and relevant experience, working in high-security client environments to support mission-critical operations.
- ✓ **AI-Driven Solutions** – Developed proprietary tools like Doc2Data.ai and RFP-Engine, used by federal agencies for automated document conversion and compliance enforcement.
- ✓ **Certified Expertise** – Our team holds 100% industry-recognized certifications, including PMP, ITIL, AWS Cloud, Azure Cloud, and Six Sigma, ensuring top-tier project execution.
- ✓ **Proven Rapid Onboarding** – A streamlined hiring and integration process enables us to deploy highly skilled professionals quickly, ensuring seamless.
